If you have an idea, but are not sure how to make it happen, this session is perfect for you. Equally, if you are involved in an organisation that is already established, but you've got some queries or concerns, we can help!

Some things you could ask during your 1:1 session are:

- I have an idea, and I'm not sure if it's a social enterprise or charity.
- I need some advice surrounding my board.
- I need help with identifying funding sources.
- I need help with a funding application.
- I'm not sure how to move my organisation forward.
- I'd like help with my business plan.
- I'd like some advice around getting a building for my organisation.
- I need helping to build a suite of policies and procedures.

During this session, we can explore various topics related to social enterprise and charity, including innovative business models, sustainable practices, and effective fundraising strategies. Our expert community development workers will share their experiences and provide valuable insights to help you navigate the challenges and opportunities in this field.

Personal Safety Course for Women

This empowerment-focused, trauma-informed Personal Safety course will be delivered in Orkney on 1 and 2 May 2024 (the venue is still to be confirmed).

The training is split into theory and practical sessions:

- The theory side covers the Law regarding Self Defence, Reasonable Use of Force, Warning Signs and Danger Signs (so you can recognise when an attacker is about to attack before it happens), Voice Control, Defensive Stance, the T-Zone (so you know where to effectively strike an attacker), Improvised Weapons, and various scenarios such as what to do if your being followed.
- The practical self-defence side covers breakaway techniques from a wrist grab and clothing grab, escape from a strangle hold, how to defend against a frontal attacker and a back attack, and defence against a ground attack (both a physical assault and, if required, a sexual assault).

Although the day flies by, some groups need a shorter course. A 3hr course is mainly theory with a small amount of self-defense, A 6hr session allows plenty of time for questions and advice, as well as self-defense techniques and theory.

Governance

Growing Climate Confidence

Growing Climate Confidence

Climate Confident Scotland is delivered by a SCVO, on behalf of the Third Sector Net Zero Steering Group and Scottish Funders Forum.

Growing Climate Confidence supports charities, social enterprises and community groups across Scotland to take action on the climate emergency, support nature and biodiversity and ensure a just transition to a low carbon future for our communities.

Reducing the emissions of your organisation is an important part of the journey towards a more sustainable future. Use their scorecard and template environmental policy to show what you have done already, and what you plan to do next.

- **Access the Net-zero scorecard by visiting the [Climate Confident Scotland website](#).**

Consultations

Domestic Abuse with Older Women

Women's Aid Orkney have been looking at various different topics through their Institutional Advocacy work and recently started to explore domestic abuse with women over 60.

They have created a short anonymous survey to collect information on the current situation for support with older women and domestic abuse. The survey consists of seven questions and shouldn't take more than a minute to complete.

Take part by online by completing the survey using the [Survey Monkey website](#).
